RE; SB 16/HB5416 Connecticut is called the consitution state if you allow laws such as these to be past you will have to change the name to the communist state/ / you might as well put a copy of the 2nd amendment on the floor and let the symbol of the governors party walk all over it. we already have enough laws in place enforce them to the letter of the law like you should /stop making honest hard working citizens criminals / thank you and god bless the USA
